Service: \_\_\_\_\_

Submit two measurable program outcomes for each service funds are being applied for. Your outcome should address:

1. What benefits or changes are desired for clients during or after participating in program activities?
2. How do you plan to accomplish this outcome?
3. How will your agency evaluate if the outcome is accomplished?

Describe the benefits for client during or after participation in your program and target indicators.	Describe how your agency plans to accomplish this outcome.	Describe how your agency will evaluate whether or not desired outcome is met, and include data collection methods.
<p><i>EXAMPLE: Clients living in outlying areas will have increased knowledge of available service. Goals of 8% increase in referrals from clients living in 49318 and 49451 zip codes.</i></p>	<p><i>Contact meal sites, community eds, municipalities and churches in target areas to request opportunities for presentation and distribute material regarding available services.</i></p>	<p><i>Comparison of previous years referrals in 49318 and 49451 zip codes to current year and comparison to all current year zip codes; intake information collected and maintained in agency database.</i></p>
